Summary

Auction type
SIMPLE

Direction
Forward (selling)

Who can join
Public

Unit
Single Unit · 1 × Toyota Innova, 2019 (used)

Opening price
₹8,00,000

Reserve
None

Mechanism
Open

Price progression
3 windows

Starts
Thu 29 Oct · 11:00

Soft close
+2 min, up to 5 times

Winner
The highest bid · own price

Steps
4 before · 1 after

Minimum participants
3, checked 30 min before start

STEP 5 OF 7

Award

Three policies run at the close: who wins, how ties break, and the winning price. Then the winner completes the steps after the auction.

Who wins Policy · Post auction
The highest bid
At close: 13:00, or later if extended

Ties Policy · Post auction
Earliest bid wins
At close: right after Who wins

Winning price Policy · Post auction
The winner's own bid
At close: once the winner is known

If nothing sells
When no bid meets the reserve, or nobody bids.

- (•) **Mark the unit unsold** — The stock goes back to the listing.
- ( ) **Re-auction it** — Start a new draft with the same settings.

Confirming the result
Final at the close, or after you check it.

- **Automatic** — The result is final when bidding closes.
- **I confirm it** — The result stays provisional until you confirm it.

After the auction
1 workflow step · winner only

from the close · 13:00 (13:10 at latest)

1 **Winning payment** Payment · Required
Offline · ₹5,000 + 102% of winning price
Sun 1 Nov · 13:00 — 3 d after the close

STEP 5 OF 7

Award

Three policies run at the close: who wins, how ties break, and the winning price. Then the winner completes the steps after the auction.

Who wins — Policy — Post auction — Runs first at the close

The winner is
Forward auction: higher bids are better.

- (●) **The highest bid** — Standard. The best offer wins.
- ( ) **The 2nd-highest bid** — Rare. Used in some sealed-bid formats.
- ( ) **The 3rd-highest bid** — Rare.

Example
Four bids at the close.

RANK	BIDDER	BID	PLACED
1	**Bidder A**	**₹8,25,000**	**12:58:10**
2	Bidder B	₹8,10,000	12:52:41
3	Bidder C	₹8,09,000	12:55:02
4	Bidder D	₹8,04,000	12:31:19

Bidder A wins with ₹8,25,000.

Saved with the rest of the auction when you continue. Done

Ties — Policy — Post auction — Only used when the winning bids tie

If the winning bids tie
Pick how to break it.

- (●) **The earliest bid wins** — Rewards whoever committed first. Most common.
- ( ) **Pick one at random** — Every tied bidder has the same chance.
- ( ) **Tied bidders bid again** — Needs MULTI_ROUND — A short extra round just for them.

ⓘ Every bid must beat the best price on show, so two bids can't be equal. This rule only matters if you change what bidders see.

Saved with the rest of the auction when you continue. Done

Winning price — Policy — Post auction — Runs after Who wins

The winner owes
This becomes the winning price.

- (●) **Their own winning bid** — First price. What they bid is what they pay.
- ( ) **The 2nd-highest bid** — Second price. Bidders can bid what it's truly worth to them. Needs a reserve.
- ( ) **The 3rd-highest bid** — Rare. Needs a reserve.

Example
Same four bids. The highest bid wins.

RANK	BIDDER	BID	PLACED
1	**Bidder A · winner**	**₹8,25,000**	**12:58:10**
2	Bidder B	₹8,10,000	12:52:41

3	Bidder C	₹8,09,000	12:55:02
4	Bidder D	₹8,04,000	12:31:19

Bidder A wins and owes ₹8,25,000 — their own bid.

✓ The “Winning payment” step charges 100% winning amount + 2% buyer’s fee + ₹5,000 handling, so in this example the winner pays ₹8,46,500.

Saved with the rest of the auction when you continue.

Done

If nothing sells

When no bid meets the reserve, or nobody bids.

- (•) **Mark the unit unsold**
  The stock goes back to the listing.
- ( ) **Re-auction it**
  Start a new draft with the same settings.

Confirming the result

Final at the close, or after you check it.

- **Automatic**
  The result is final when bidding closes.
- **I confirm it**
  The result stays provisional until you confirm it.

✓ **After the auction**

1 workflow step · winner only

from the close · 13:00 (13:10 at latest)

1 **Winning payment** Payment Required

Offline · ₹5,000 + 102% of winning price

STEP 5 OF 7

Award

Three policies run at the close: who wins, how ties break, and the winning price. Then the winner completes the steps after the auction.

Who wins — Policy · Post auction · Runs first at the close

The winner is
Forward auction: higher bids are better.

- ○ **The highest bid** — Standard. The best offer wins.
- ◉ **The 2nd-highest bid** — Rare. Used in some sealed-bid formats.
- ○ **The 3rd-highest bid** — Rare.

Example
Four bids at the close.

RANK	BIDDER	BID	PLACED
1	Bidder A	₹8,25,000	12:58:10
2	**Bidder B**	**₹8,10,000**	**12:52:41**
3	Bidder C	₹8,10,000	12:55:02
4	Bidder D	₹8,04,000	12:31:19

Bidder B wins with ₹8,10,000.

ⓘ Bidders B and C are tied. The Ties policy decides between them if it matters.

Saved with the rest of the auction when you continue. Done

Ties — Policy · Post auction · Only used when the winning bids tie

If the winning bids tie
Pick how to break it.

- ○ **The earliest bid wins** — Rewards whoever committed first. Most common.
- ◉ **Pick one at random** — Every tied bidder has the same chance.
- ○ **Tied bidders bid again** — Needs MULTI_ROUND — A short extra round just for them.

ⓘ Ties are possible here, because bidders can't see the best price.

Example
Who wins picks the 2nd-highest bid, so B and C tie.

RANK	BIDDER	BID	PLACED
1	Bidder A	₹8,25,000	12:58:10
2	Bidder B · tied	₹8,10,000	12:52:41
3	Bidder C · tied	₹8,10,000	12:55:02
4	Bidder D	₹8,04,000	12:31:19

B or C is picked at random, each with a 50% chance.

Saved with the rest of the auction when you continue. Done

Winning price — Policy · Post auction

Opening price
₹8,00,000

Reserve
None

Mechanism
Open

Price progression
3 windows

Starts
Thu 29 Oct · 11:00

Soft close
+2 min, up to 5 times

Winner
The highest bid · 2nd price

Steps
4 before · 1 after

Minimum participants
3, checked 30 min before start

STEP 5 OF 7

Award

Three policies run at the close: who wins, how ties break, and the winning price. Then the winner completes the steps after the auction.

Who wins Policy · Post auction
The highest bid
At close: 13:00, or later if extended

Ties Policy · Post auction
Earliest bid wins
At close: right after Who wins

Winning price Policy · Post auction · Runs after Who wins

The winner owes
This becomes the winning price.

- ○ **Their own winning bid** — First price. What they bid is what they pay.
- ◉ **The 2nd-highest bid** — Second price. Bidders can bid what it's truly worth to them. Needs a reserve.
- ○ **The 3rd-highest bid** — Rare. Needs a reserve.

⚠ This rule needs a reserve price. Without one, a weak runner-up would set a very low price. Set a reserve in Basics and unit

Example
Same four bids. The highest bid wins.

RANK	BIDDER	BID	PLACED
1	**Bidder A · winner**	**₹8,25,000**	**12:58:10**
2	Bidder B	₹8,10,000	12:52:41
3	Bidder C	₹8,09,000	12:55:02
4	Bidder D	₹8,04,000	12:31:19

Bidder A wins and owes ₹8,10,000 — the 2nd-highest bid.

✓ The "Winning payment" step charges 100% winning amount + 2% buyer's fee + ₹5,000 handling, so in this example the winner pays ₹8,31,200.

Saved with the rest of the auction when you continue. Done

If nothing sells
When no bid meets the reserve, or nobody bids.

- ◉ **Mark the unit unsold** — The stock goes back to the listing.
- ○ **Re-auction it** — Start a new draft with the same settings.

Confirming the result
Final at the close, or after you check it.

- **Automatic** — The result is final when bidding closes.
- **I confirm it** — The result stays provisional until you confirm it.

After the auction
1 workflow step · winner only
from the close · 13:00 (13:10 at latest)

1 **Winning payment** Payment · Required
Offline · ₹5,000 + 102% of winning price
Sun 1 Nov · 13:00 — 3 d after the close

ADD A STEP AFTER THE AUCTION

STEP 5 OF 7

Award

Three policies run at the close: who wins, how ties break, and the winning price. Then the winner completes the steps after the auction.

Who wins — Policy — Post auction — Runs first at the close

The winner is
Forward auction: higher bids are better.

- (●) **The highest bid** — Standard. The best offer wins.
- ( ) **The 2nd-highest bid** — Rare. Used in some sealed-bid formats.
- ( ) **The 3rd-highest bid** — Rare.

Example
Four bids at the close.

RANK	BIDDER	BID	PLACED
1	**Bidder A**	**₹8,20,000**	**12:58:10**
2	Bidder B	₹8,08,000	12:52:41
3	Bidder C	₹8,08,000	12:55:02
4	Bidder D	₹8,03,200	12:31:19

Bidder A wins with ₹8,20,000.

ⓘ Bidders B and C are tied. The Ties policy decides between them if it matters.

Saved with the rest of the auction when you continue. Done

Ties — Policy — Post auction — Only used when the winning bids tie

If the winning bids tie
Pick how to break it.

- (●) **The earliest bid wins** — Rewards whoever committed first. Most common.
- ( ) **Pick one at random** — Every tied bidder has the same chance.
- ( ) **Tied bidders bid again** — Needs MULTI_ROUND — A short extra round just for them.

ⓘ Ties are possible here, because sealed bids are hidden from each other.

Example
If Who wins picked the 2nd-highest bid, B and C would tie.

RANK	BIDDER	BID	PLACED
1	Bidder A	₹8,20,000	12:58:10
2	**Bidder B · tied**	**₹8,08,000**	**12:52:41**
3	Bidder C · tied	₹8,08,000	12:55:02
4	Bidder D	₹8,03,200	12:31:19

B bid ₹8,08,000 at 12:52:41, before C, so B wins the tie.

Saved with the rest of the auction when you continue. Done

Winning price — Policy — Post auction — Runs after Who wins

The winner owes
This becomes the winning price.

- ○ **Their own winning bid**
  First price. What they bid is what they pay.
- ◉ **The 2nd-highest bid**
  Second price. Bidders can bid what it's truly worth to them. Needs a reserve.
- ○ **The 3rd-highest bid**
  Rare. Needs a reserve.

Example
Same four bids. The highest bid wins.

RANK	BIDDER	BID	PLACED
1	**Bidder A · winner**	**₹8,20,000**	**12:58:10**
2	Bidder B	₹8,08,000	12:52:41
3	Bidder C	₹8,08,000	12:55:02
4	Bidder D	₹8,03,200	12:31:19

Bidder A wins and owes ₹8,15,000 — the 2nd-highest bid, raised to the reserve.

✓ The "Winning payment" step charges 100% winning amount + 2% buyer's fee + ₹5,000 handling, so in this example the winner pays ₹8,36,300.

Saved with the rest of the auction when you continue. **Done**

If nothing sells
When no bid meets the reserve, or nobody bids.

- ○ **Mark the unit unsold**
  The stock goes back to the listing.
- ○ **Re-auction it**
  Start a new draft with the same settings.
- ◉ **Let me accept the best bid below the reserve**
  You decide after the close.

Confirming the result
Final at the close, or after you check it.

- **Automatic**
  The result is final when bidding closes.
- **I confirm it**
  The result stays provisional until you confirm it.

STEP 5 OF 7

Award

Three policies run at the close: who wins, how ties break, and the winning price. Then the winner completes the steps after the auction.

Who wins — Policy — Post auction — Runs first at the close

The winner is
Reverse auction: lower asks are better.

- (●) **The lowest ask** — Standard. The best offer wins.
- ( ) **The 2nd-lowest ask** — Rare. Used in some sealed-bid formats.
- ( ) **The 3rd-lowest ask** — Rare.

Example
Four asks at the close.

RANK	SUPPLIER	ASK	PLACED
1	**Supplier A**	**₹5,75,000**	**12:58:10**
2	Supplier B	₹5,90,000	12:52:41
3	Supplier C	₹5,90,000	12:55:02
4	Supplier D	₹5,96,000	12:31:19

Supplier A wins with ₹5,75,000.

ⓘ Suppliers B and C are tied. The Ties policy decides between them if it matters.

Saved with the rest of the auction when you continue.

Done

After the auction

1 workflow step · winner only

from the close · 13:00 (13:10 at latest)

1 Winning payment Payment · Post auction · Step 1 of 1 · winner only

About this step
What the winner sees in their checklist.

NAME: Winning payment

DESCRIPTION · optional: Pay the winning amount and fees to complete

[on] **Required — the win isn't complete until this is paid**

How they pay
Online is collected by the platform. Offline you record yourself.

- **Online** — UPI, credit or debit card, net banking
- **Offline** — Cash, cheque or bank transfer

Due by
How long the winner has after the close. Must be more than zero.

1 day | 2 days | 3 days | 1 week

3 d 0 h 0 after the close

DUE Sun 1 Nov · 13:00 3 d after the scheduled close

If late bids extend the auction, this moves with it. At the latest close (13:10) it is Sun 1 Nov · 13:10.

Charges
Each charge is added up. Percentages are taken from the winning price.

The winning price comes from the Winning price policy: the winner's own bid. Until there is a winner, % charges show as a formula.

CHARGE	WHAT IT'S FOR	CHARGED AS	VALUE	REFUNDABLE
Winning a	Your winning	% of winning price	% 100	No

Auction rules timeline

6 policies · 5 workflow steps · across 3 phases

Pre auction — 4 workflow steps · 1 policy — until Thu 29 Oct · 11:00

Wed 28 Oct · 11:00 — first step · before step 2 is due

1 **Terms and conditions** — Workflow step — Required

Agreement to take part in the auction. Participants tick to accept; it can't be changed afterwards.

Read the terms

Wed 28 Oct · 11:00 — 1 d before start

2 **Personal details** — Workflow step — Required

Tell us who you are so we can verify you. Participation form, approved by you.

PAN · Aadhaar · Date of birth

Thu 29 Oct · 09:00 — no deadline of its own · before step 4 is due

3 **Bank details** — Workflow step — Required

Where we send refunds of your deposit.

Bank name · IFSC code · Account number · Cancelled cheque

Thu 29 Oct · 09:00 — 2 h before start

4 **Earnest money deposit** — Workflow step — Required

Secures your place. Refunded if you don't win. Paid online.

EMD · Earnest money deposit	Refundable	₹10,000
Participation fee · One-time fee to take part	Not refundable	1% of opening price

Thu 29 Oct · 10:30 — 30 min before start

Minimum participants — Policy

The platform counts who has finished every required step due by then. Fewer than 3 and the auction is cancelled automatically.

Upcoming

Opens in 6 d 20 h

Personal details by	Wed 28 Oct · 11:00
Earnest money deposit by	Thu 29 Oct · 09:00
Minimum check	Thu 29 Oct · 10:30
Bidding	Thu 29 Oct · 11:00 → 13:00
Latest close	Thu 29 Oct · 13:10
Winner pays by	Sun 1 Nov · 13:00

Reading the timeline

- White card · workflow step (a participant does it)
- Dark card · policy (applied automatically)
- Rows inside a dashed capsule happen at the same moment
- Runs over a span of time

During auction

2 policies · participants just place bids, no workflow steps

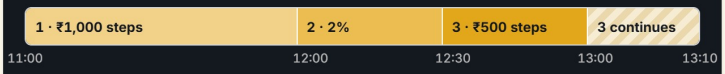

Thu 29 Oct · 11:00 → 13:00

11:00 → close
runs the whole auction

Price progression

Policy · 3 windows

Bid steps change as time passes. Each window starts when the one before ends.

Window details

13:00 → 13:10
only if late bids come in

Soft close

Policy

A bid in the last 2 min adds 2 min to the close, up to 5 times. Latest possible close: 13:10.

ⓘ Overlaps with Price progression. Window 3 (₹500 steps) stays in force during every extension.

Post auction

3 policies · 1 workflow step

from close · 13:00 (13:10 at latest)

At close
13:00, or later if extended

Who wins

Policy

The highest bid wins.

At close
right after Who wins

Ties

Policy

If the winning bids tie, the earliest bid wins.

At close
once the winner is known

Winning price

Policy

The winner owes their own winning bid.

close → Sun 1 Nov · 13:00
opens at the close · 3 d to pay

1 **Winning payment** Workflow step · Required

Pay the winning amount and fees to complete the purchase. Paid offline (cash, cheque or bank transfer) and recorded by you. The window moves with any extension.

Winning amount · Your winning bid	Not refundable	100% of winning price
Buyer's fee · Platform fee on the winning price	Not refundable	2% of winning price
Handling · Paperwork and handover	Not refundable	₹5,000

ⓘ Amount comes from the Winning price policy above: the winner's own bid.

Show the rules as text

EXAMPLE A bids ₹8,25,000, B ₹8,10,000, C ₹8,09,000, D ₹8,04,000. A wins and pays ₹8,25,000.

Supplier details by	Tue 27 Oct · 11:00
Earnest money deposit by	Wed 28 Oct · 11:00
Minimum check	Thu 29 Oct · 10:30
Bidding	Thu 29 Oct · 11:00 → 13:00
Latest close	Thu 29 Oct · 13:10

Reading the timeline

- White card · workflow step (a participant does it)
- Dark card · policy (applied automatically)
- Rows inside a dashed capsule happen at the same moment
- Runs over a span of time

EMD · Earnest money deposit — Refundable — 2% of starting price

Thu 29 Oct · 10:30
30 min before start

Minimum participants Policy

The platform counts who has finished every required step due by then. Fewer than 3 and the auction is cancelled automatically.

During auction

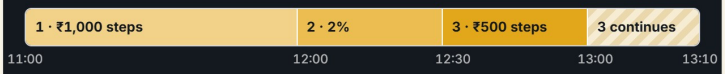

2 policies · participants just place asks, no workflow steps

Thu 29 Oct · 11:00 → 13:00

11:00 → close
runs the whole auction

Price progression Policy 3 windows

Ask steps change as time passes. Each window starts when the one before ends.

Window details

13:00 → 13:10
only if late asks come in

Soft close Policy

An ask in the last 2 min adds 2 min to the close, up to 5 times. Latest possible close: 13:10.

Overlaps with Price progression. Window 3 (₹500 steps) stays in force during every extension.

Post auction

3 policies · 1 workflow step

from close · 13:00 (13:10 at latest)

At close
13:00, or later if extended

Who wins Policy

The lowest ask wins.

At close
right after Who wins

Ties Policy

If the winning asks tie, the earliest ask wins.

At close
once the winner is known

Winning price Policy

The winner is paid their own winning ask.

After the close
winner only · no deadline of its own

1 **Bank details for payout** Workflow step

Required

Where we pay you if you win.

Bank name · IFSC code · Account number · Cancelled cheque

Show the rules as text

EXAMPLE A asks ₹5,75,000, B ₹5,90,000, C ₹5,90,000, D ₹5,96,000. A wins and is paid ₹5,75,000.

STEP 2 OF 7

Offer rules

How asks are made, how the price may move over time, and what suppliers see.

Published Tue 20 Oct · 14:01. The rules are locked as version 1, so everyone takes part on the same terms. You can look, but not change anything.

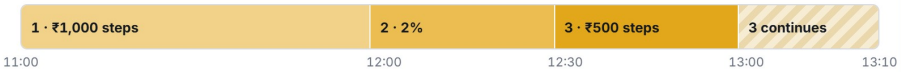

Invite participants

Mechanism
How prices are made. Clock and sealed come in a later release.

- **Open** — Suppliers post prices that beat the current price.
- **Clock** Later release — The platform lowers the price on a timer. Suppliers stay in or drop out.
- **Sealed** Later release — Hidden asks by a deadline, opened together.

Price progression Policy · During auction · Composite · Each window is a child policy

Timeline
Windows run back to back. The last one runs to the close.

Windows
Each window sets how the price may move while it's active.

Window 1 11:00 → 12:00 · 1 h

PRICE MOVES BY: Fixed step (₹ × jumps) — RUNS FOR: 1 h 0 min

ONE STEP: ₹ 1000 — SUPPLIERS MAY JUMP: 1 step, 2 steps, 3 steps, 5 steps, 10 steps

Add each number of steps one ask may move the price, one at a time: pick from the list, or type a number and press Enter. An ask of 3 steps moves the price by ₹3,000.

NEXT VALID ASKS FROM ₹6,00,000 ₹5,99,000 · ₹5,98,000 · ₹5,97,000 · ₹5,95,000 · ₹5,90,000

Window 2 12:00 → 12:30 · 30 min

PRICE MOVES BY: Fixed percentage — RUNS FOR: 0 h 30 min

EACH ASK MOVES: % 2

NEXT VALID ASKS FROM ₹6,00,000 exactly ₹5,88,000

Window 3 12:30 → close

PRICE MOVES BY: Fixed step (₹ × jumps) — RUNS: Until the close and any extension

ONE STEP: ₹ 500 — SUPPLIERS MAY JUMP: 1 step, 2 steps, 3 steps, 5 steps, 10 steps

Add each number of steps one ask may move the price, one at a time: pick from the list, or type a number and press Enter. An ask of 3 steps moves the price by ₹1,500.

NEXT VALID ASKS FROM ₹6,00,000 ₹5,99,500 · ₹5,99,000 · ₹5,98,500 · ₹5,97,500 · ₹5,95,000

+ Add a window

Saved with the rest of the auction when you continue.

Done

First ask
Where the first ask may land.

The first ask may equal the starting price

Rounding
Percentage windows give uneven amounts.

ROUND PERCENTAGE PRICES TO

The nearest ₹1

Percentages give uneven amounts, such as 2% below ₹594 = ₹582.12.

Withdrawing an ask
Can an ask be taken back once it's placed?

Not allowed
An ask is final once placed.

Allowed, with a penalty
Until a set time before the close. If the final price ends up worse, the withdrawer pays the difference.

What suppliers see
While bidding is open.

- ○ **Best price and own rank**
  Suppliers see the current best ask and where they stand.
- ◉ **Own rank only**
  Suppliers see only their position: L1, L2, ...
- ○ **Nothing until close**
  No prices or ranks while bidding is open.

ⓘ Suppliers can't see the best price, so each new ask only has to beat their own last ask. The platform works out the ranks, and ties can happen.

Names
How suppliers appear to each other.

- ◉ **Aliases**
  Supplier 1, Supplier 2... kept the same for the whole auction.
- ○ **Real names**
  Everyone sees who is bidding.
- ○ **Hidden**
  No names or aliases are shown.
